### *New Roof for South Campus of the New Hope Church*

This Bronze Pathfinder team came from many states to replace the roof on the New Hope Church, South Campus. The building was formally a restaurant and barbershop. The barbershop still remains and the barber is a staff pastor of the church. Senior Pastor Keith Davey is making a difference in the downtown Albany area.

The team also did a renovation to the inside of the church by installing doors, walls, and counter top. The team was also able to do computer maintenance

for the church.

The team broke into small groups and attended all the services of the church.

The ladies in the House of Hope provided several delicious meals for the team.

Pathfinders also assisted House of Hope in 2005.

**Albany New York**

**Whiteriver Arizona**

**Dominican Republic**

## Up coming projects

Bolivian Hope Center Nov. 2009

Burkina Faso, Africa Jan. 15 -29 2010

Chile Pathfinders 101 Training 2010

Nicaragua Pathfinder 101 training 2010

Northern Thailand Gold project early 2010

## Whiteriver, AZ. Parsonage gets a face lift by Pathfinders

A team of 13 men and women from four different churches rallied on the Whiteriver A/G church located on the White Mountain Apache Indian Reservation. The team painted, landscaped the parsonage and the children's church.

The team participated in all the services of the church. One highlight for the team was attending the Youth Service at the Kennel. This is an area with games and computers the youth can go to after school. Every one is allowed to sing, preach, and be a part of many different activities during the week. This is really affecting the lives of the young people on the reservation. Many of them are attending church and becoming a part of worship teams and other groups. The youth pastor of this group is a Native American whose life has been radically changed by God.

The team visited Prayer Mountain and prayed over the entire reservation. They toured Fort Apache and many other sites around the reservation.

Robert Jeminez serves as Senior Pastor. Brian Warwick formally from Tennessee serves as an associate pastor in the church. Brian has also served on several short-term missions projects around the world.

This church even with 70 percent unemployment still sends out mission's teams to Mexico and Nicaragua annually.

## CIMA Del Rey, Dominican Republic

Harvest Assembly in Lakeland, Florida lead a Silver Pathfinder team to CIMA Del Rey in the Dominican Republic. CIMA is a training and retreat center in the Dominican Republic. The center is being used to house and train groups to reach out to the DR in street ministry. This team was able to make many repairs on the property, which will protect this investment for years to come.

Missionary Nelson DeFreitas hosted the team. Each construction team serving in this area participates in some street evangelism with the Castle Warriors.

Many more teams are needed in this area to bring the camp to its full potential. Please contact me if you are interested in working in this area. This is an excellent missions outreach for both men and women.

### Pray with us

I just received a call for a Gold Pathfinder team in Northern Thailand. This is needed in March 2010. If you are interested in this, contact me ASAP.

If you are interested in making site visits and learning how to conduct a Pathfinder Projects, then plan to go with me to Nicaragua in Feb. 2010.

Hopefully we will conduct several site visits in 2010 so contact me ASAP to get on the list.

Pathfinder Caps available for your teams please contact me for more information.
